

Ball Valves are used commonly to Shut off flow or throttle the flow.

Salient features

- Chrome plated ball for better life.
- Nickle plating to prevent external corrosion.
- Anti-Corrosion Steel handle.

Technical Specification

Pressure	:	PN 30
Temperature	:	- 10 to 120 Deg Celsius.
Medium	:	Water, Oil and Non-Corrosive fluids.
End connection	:	Female BSP thread (ISO228 G)
SIZE (mm)	:	65 , 80 , 100.
		15 to 50 mm - Under development

All parts are nontoxic – suitable for potable water.

Material of Construction

Body & Cover	:	Brass
Ball	:	Brass
Seat	:	PTFE.
Gland Packing	:	PTFE.
Lever / Handle	:	Steel.
Stem / Gland / Nut	:	Forged Brass.

Dimension –

SIZE	L	L1	H	L2
