

A Simple hand held portable Drain cleaning tool which clears blockages in drainage pipes in the most economic way.

Works Where Plungers, Chemical and everything else fails

### How to Use :

Feed the cork screw auger down the drain until blockage is reached. Rotate using slight forward pressure till blockage is cleared. Wash air dry & oil the coil before winding it. (Please see animated operating instructions given with product)

### Salient Features :

- ▶ Compact & Sturdy.
- ▶ Stores Spring Coil of 5,12 or 25 feet.
- ▶ Simple hand driven operation. No motors or tools are required.
- ▶ Spring coil of superior steel quality can pass through odd bends & passages (due to flexibility) without cracking or bending.
