

Ball Valves are used commonly to Shut off flow or throttle the flow.

Salient features

- Chrome plated ball for better life.
- Nickel plating to prevent external corrosion.
- Handle in options of Aluminum or Steel.

Technical Specification

Pressure	:	PN 30 (30kg/cm ²) (PN16 option available as BBA9 L)
Temperature	:	- 10 to 120 Deg Celsius.
Medium	:	Water, Oil and Non-Corrosive fluids.
End connection	:	Female BSP thread (ISO228 G)
SIZE (mm)	:	15 , 20 , 25 , 32 , 40 , 50.

All parts are nontoxic – suitable for potable water.

Material of Construction

Body & Cover	:	Forged Brass with Nickel plating
Ball	:	Nickel + Chrome plated brass.
Seat	:	PTFE.
Gland Packing	:	PTFE.
Lever / Handle	:	Aluminum.
Stem / Gland / Nut	:	Forged Brass.

Dimension –

SIZE	L	L1	H	L2
1/2"	48.9	12	49.5	85
3/4"	57.6	13.5	54	85
1"	66.4	15	58.1	114
1-1/4"	76	16	65.7	114
1-1/2"	89	18	73.6	136
2"	108	21	83.8	136
