

CHECK VALVE ALLOWS FLOW IN ONE DIRECTION AND STOPS REVERSE FLOW.

Salient features

- Suitable for both horizontal and vertical lines.
- Spring loaded makes efficient closure.
- Low weight disc helps reduce the pressure drop and needs minimal pressure to actuate it.

Technical Specification

- Pressure : PN 16 (16kg / cm²)
- Temperature : upto 90 Deg Cel.
- Medium : Water, Oil, Compressed Air, and Non-Corrosive fluids.
- End connection : Female BSP thread (ISO228 G)
- SIZE (mm) : 15 , 20 , 25 , 32 , 40 , 50

Material of Construction

- Body & Cover : Forged Brass
- Cone : Low weight plastic.
- Spring : SS304 (CF8)
- Seat : NBR

Dimension –

SIZE	Ø A	L	L1
1/2"	33.7	46.5	12
3/4"	39.5	50	12
1"	45.9	57	13.5
1-1/4"	58.7	60.5	15
1-1/2"	68	71	16
2"	84	74.5	17
